All things bright and beautiful...

Sorry to remind you but the dark nights are approaching so, now is the time to start preparing for the winter months and fill your home with beacons of warmth and light from Fishpools.

Lighting now plays a serious role in interior design and trends have moved away from having standard central fitted lights to more atmospheric designs.

Fishpools has a new refitted lighting department dedicated to this important process and have some great tips for creating the look you want.

Next time you find yourself in a space which you love and feel most comfortable in, whether it be a restaurant, a bar or your friends' home, take a note of how it is lit and see whether you can incorporate those ideas into your home.

Before you head off to the shops and buy the first lights you see, assess your

natural light first. It is best to do this on a dark wintry day rather than a bright summer one as you need to consider the worst case lighting scenario.

Once you have assessed the natural light which flows into your room, make a list of any activities that will be carried out in that room. Whether it is peeling vegetables, reading your favourite book or applying your makeup, this will determine where and if task lighting is needed.

Ok so you have planned and planned, now for the fun task... shopping! Fishpools has an extensive range of leading brands such as Waterford, Moorcroft, Florence, Franklite, Dar and Fantastic Crystal. With all of this choice you may find it hard to choose, but rest assured Fishpools' staff are on hand to offer you top class advice and assistance.

Whether you have a modern or traditional home the lighting department will
