

We're all becoming increasingly style conscious and aware of trends but unfortunately we're also aware of the credit crunch biting!

# A modern example...

But with successful interior design shows on our TV's and lots of trendy magazines available there is plenty of inspiration to get high style looks at affordable prices.

Over the years, modern furniture has become popular with trends introducing a clean and clutter-free environment in our homes.

Modern living spaces also mean that we are no longer confined to conventional rooms with a number of different activities now combined into one space. With flexible living and open spaces leading the way, furniture is now designed to meet these modern living demands and help create modern spaces.

Keeping the look simple is the key to

success as you don't have to go all out or try to live in a space where you are frightened to sit down and spoil the décor! A few simple changes can make a huge difference in a room.

For a modern dining area have a look at Genoa, a high quality extending glass top dining table with leather dining chairs. This style of furniture is simple and focuses the eye on the quality of the design, rather than decorative features and heavy patterns.

With a simplistic style décor you can either opt for neutral surroundings or be brave with bright colours. If you do decide to keep the overall look neutral then introduce plenty of texture and interest with touchy fabrics and natural accessories such as a suede cushion and hand carved wood.

Choose from sexy leather beds and unique sofas, the Oasis sofa is available in a trendy orange textured fabric and will match any modern neutral home.

If you're brave Fishpools stock a great range of modern and contemporary furniture whether you want chrome, glass or wood.

Modern style is easy to live with and can be suited to any room. A room can be transformed with one simple piece of furniture or given a full makeover with accessories and flooring to complete the modern look.

Fishpools has everything you could need to create that a modern and contemporary look whether you have a trendy cool loft apartment or a beautifully restored Victorian terraced house.
