

INTERIORS WITH FISHPOOLS

A WORLD OF FURNISHING IDEAS

We've fallen back in love with dining – finding the space and time to eat at the table. Eating glued to the TV with trays on laps is no longer de rigueur and here at Fishpools we're celebrating this new found excitement for sharing mealtimes.

Rediscover stylish dining...

Dining is a time for socialising and being together – whether it's a grand dinner party, Sunday lunch or a simple teatime chat with the kids.

A kitchen table is often the hub of activity in any home, creating a natural meeting point for all members of the family throughout the day, while separate dining rooms create a more formal and intimate dining experience.

Choices of dining furniture may often be swayed by practicality but, whatever the intended use or position of your dining furniture, compromising on style is never an option when choosing from the Fishpools' dining range – whatever your tastes.

For those of us with aspirations to uncluttered, modern living, the Genoa dining range, with extendable glass table top, white leather upholstery and sleek looping chrome legs, is the height of sharp, minimal styling.

Loft is a classic dining table which would happily adorn either a large farmhouse kitchen or a slick apartment. Rustic oak with contemporary styling makes this a strong design choice for the more informal household. Team it up with Churchill crockery for a simply chic look.

For simple grandeur, the Madison is a strong design choice, which would work well in both a traditional or modern home. The warm wood and lustrous sheen makes this a glamorous and luxurious statement in dining style.

Interiors fashion is currently embracing gothic styling and the Monastery dining range keeps you up to date with this timeless design.

For classic opulence, the Serafina range is Italian inspired dining for the home that

exudes femininity. This dining suite will truly define the romantic dining experience.

Not content in just offering you the ultimate collection in dining style, Fishpools accessories have been carefully chosen to give your home and dining space that extra touch of class. Accessorise to your heart's content with Swarovski and Waterford crystal for that added sparkle and Lladro ceramics to decorate the more traditional table.

Whatever your style, the perfect dining experience is never far away – at Fishpools.
