Transformer required. These lights are fitted with **A++** to **A** LED bulbs, based on a scale of **A++**(most efficient) to **E** (least efficient). The bulbs cannot be replaced.
LED transformer 15 watt	LEVG15	83,-	 12 volt/15 watt, suitable for max. 6 connections. Cable length approx. 5 metres, switch on the supply cable.
LED transformer 30 watt	LEVG30	127,-	 12 volt/30 watt, suitable for max. 10 connections. Cable length approx. 5 metres, switch on the supply cable.
Remote control for LED lighting	FKS4	220,-	 A maximum of four power circuits can be switched and dimmed using the remote control. A power circuit may contain up to six light fixtures. A transformer is also always required.

Accessories

Article	Order no.	GBP	Description
Electrical storage compartment			
IR repeater Receiver on stand, as shown.	IRST	132,-	 IR = infrared The IR repeater increases the range of standard IR remote controls within the unit. A DVD player can therefore be operated from behind a closed cover, for example. Incoming IR commands from the appliance's remote control are received by the receiver, amplified and passed on inside the unit via the transmitter. The advantage is that the repeater only passes on signals, it therefore does not require its own remote control. A 220-volt mains connection is required for operation.
The receiver is drilled into the supporting-element rear panel	IRWP	132,-	
Electrical storage compartments			
Electrical storage compartment with remote control for			 Please specify the element in which the electrical storage compartment should be fitted. The integrated radio remote control has four connections. A maximum of four power circuits can be switched or dimmed. The upper cover is a removable wooden shelf, and the full depth of the cupboard can therefore be used. A transformer is also always required.
wide sideboard doors	LES49KF	268,-	
narrow sideboard doors	LES33KF	268,-	
display units and 163.4 cm wide base elements	LES41F	268,-	
wide highboard doors and 195.9 cm wide base elements	LES49F	268,-
